#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

The rejection of claim 10 under 35 U.S.C. 112, second paragraph as being indefinite is moot in view of applicants amendment.

The rejection of claims 1-8 under 35 U.S.C. 102(b) as being anticipated by Flynn, 3,901,833 is withdrawn in view of applicants' amendments.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, for reasons of record.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 4-6 and 8-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Flynn, 3,901,833, as applied previously.

Flynn is as set forth previously but does not specifically teach a solventless epoxy resin reaction product. However, Flynn teaches that his composition is characterized by a solvent content below about 0.5%. This

teaching would have provided a suggestion to the skilled artisan for the use of a composition that is solventless, as required by applicants. Therefore, the prior art teachings of Flynn would have rendered obvious the invention as claimed in the present claims.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1, 4-6, 8-12 have been considered but are moot in view of the new ground(s) of rejection.

No claims are allowed.
